Introducing... **Thermaduct** to the rescue!

**thermaduct**  
OUTDOOR DUCT SOLVED

Have you ever seen exposed ductwork after a few years?  
It looks like this:

But **Thermaduct** looks like this:

Our offices/warehouse:

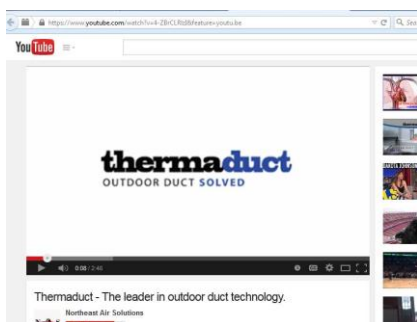

43 Thomas St.  
East Hartford, CT 06108  
(860) 290-6969  
Fax: (860) 290-6977  
airequipmentllc.com

## What exactly is **Thermaduct**?

Thermaduct is a fabricated exterior ductwork system, made of high R-value, low-leakage, closed cell, rigid phenolic foam. A foil skim aluminum jacket is adhered to the inside of the duct, and a 39-mil vinyl jacket is laminated to the outside. The duct sections are connected using 4-bolt metal flanges.

So the duct, the insulation, and the weather protection are all in one product!

Visit this YouTube page and watch the video produced by our partners at Northeast Air Solutions:

<https://www.youtube.com/watch?v=4-ZBrCLRlZl&feature=youtu.be>

## Thermaduct...

- Reduces labor costs
- Requires no insulation sub-contractor
- Will look "brand new" for many years
- Is fabricated in the USA

For more information about Thermaduct, call the Air Equipment office at 860-290-6969 or send an email to Bill Dunn at:
