Specialty Exhaust

Sometimes standard products simply cannot get the job done. So, you need **special** products for **special** exhaust applications. Here are 4 manufacturers represented by Air Equipment LLC:

KB Duct
A CECO Environmental Brand

KB Clamp Together Duct Provides You With...

Infinite Adjustability

Superior Clamping and Fast Installation

Two key methods of adjustment
Quickly make infinite adjustments to fit any length of space between fittings

- Use 11" long adjustable sleeve for longer lengths
- Use adjustable collar for critical short adjustments

Superior clamping
The KB Duct Forever Clamp is designed for quick, secure, repetitive-use

- Heavy duty "winged" O-ring gasket

All welded stainless steel clamp and frame

Variety of gaskets available

2" adjustment on every fitting

Fully welded seams

Contoured design for superior clamping

Winged O-ring for tight compression fit

The "FOREVER" Clamp

Winged O-Ring Gasket
BUNA N™ is standard material. Other material Available

Welded Hinge Assembly
(No punched or perforated material)

KB Duct offers high pressure, gasketed, quick-clamp duct. Perfect for labs or industrial applications. Rated to 40" w.g., and no fasteners in the airstream.

AQC makes some of the finest dust collectors on the market: cyclones, shaker type, cartridge, or portable units. **AQC** has a full line of products and accessories. Great for technical schools, manufacturing, universities, etc.

Our offices/warehouse:

More Specialty Exhaust products...

MONOXIVENT[®]
Source Capture Systems

Monoxivent is an industry leader for source-capture products. Hose reels, fume arms, vehicle exhaust, and boom arms; plus a full line of blowers, controls, and accessories. **Monoxivent** also offers a full line of fiberglass reinforced plastic (FRP) ductwork, for underground or corrosive applications.

 **CONTAMINATION TECHNOLOGY CORPORATION**

Contamination Technology Corp (**CTC**) makes high quality Bag-in, Bag-out filter housings, for those situations where the contaminated exhaust air is dangerous and the facilities staff must be protected when changing the HEPA filters. **CTC** will mount the BI/BO housing, a Loren Cook blower, and duct transition onto a base, and ship the whole assembly to the job site.

For more information about **KB Duct**, **AQC**, **Monoxivent**, or **CTC**, call the Air Equipment office at 860-290-6969 or send an email to Bill Dunn at: bdunn@airequipmentllc.com
